

SMA Directional Coupler 20 dB from 500 MHz to 18.5 GHz

Directional Couplers Technical Data Sheet

C-1185-20

Description

Werbel Microwave is a USA based designer and manufacturer of microwave components for use in telecommunications systems. Directional couplers are used in signal sampling, replication, measurement, attenuation and minimizing reflections. They are useful in splitting and combining RF signal networks.

The C-1185-20 is part of Werbel Microwave's catalog of single and dual directional couplers that offer a wide range of coupling values and frequency ranges. Available with SMA female connectors.
